

Congratulations on your abstract being accepted for the 7th John Price Respiratory Digital Conference, **25-26th May 2021**. This document has further information about the poster specifications, the poster discussion sessions and deadlines.

Poster Format

All posters that were successful will be displayed on the John Price Conference Platform throughout the 2-day event. We will upload these to the platform but would be grateful if you could email a PDF of the poster to abstract@paediatricrespiratory.com by **Sunday May 16th 2021**

Whilst there are no set guidelines for designing a research poster for the John Price Conference, the key points below should help you:

- Posters are often designed in PowerPoint and should be saved as a PDF.
- The recommended size is 7680 pixels wide x 4320 pixels high (65.0cms wide x 36.5cms high), landscape, 16:9 ratio.
- The abstract need not be displayed in full, as it will be in the programme. The abstract title and authors should be displayed across the top of the poster.
- Use key headings such as “Introduction”, “Methods”, “Results” and “Conclusions” in large font with text under each. Paragraphs should be short, and in most cases bullet points work better.
- Graphs and tables should be clear and as large as possible. Colour is an advantage to highlight points and lower-case lettering should be used as far as possible as this is easier to read. The same typeface should be used for all if possible and ruled lines separating different types of information should be avoided

Poster presentation Discussions

Abstracts that were also selected for Poster presentation and Discussion have been allocated a time in the relevant session heading and authors have been e-mailed the details. Poster presenters must also upload a PDF of the poster for viewing (as above). These poster discussion sessions will be live streamed (you will receive a further email from the AV team closer to the event with details and link to the session). 4-6 similar themed posters have been grouped together as part of a wider session followed by relevant talks and discussions.

Each poster presenter will have 7 minutes; a 2-minute live presentation to discuss the major findings of the research followed by a live Q&A session by the chairs and audience. The presenter will be able to display the poster but not additional PowerPoint slides.

It is expected that you remain for the whole of your session as a courtesy to all participants.

Poster presentation discussion sessions:

Physiology, Sleep, NIV

Tuesday 25th May 09:40 – 10:15

Asthma / Allergy (1)

Tuesday 25th May 13:15 – 13:43

Lung health / Public Health / COVID-19 Pandemic

Wednesday 26th May 10:00 – 10:35

Asthma / Allergy (2)

Wednesday 26th May 15:45 – 16:06

We are looking forward to the event and 'seeing' you all there. If you have any further questions please don't hesitate to contact us,

Many thanks
