Connecting to Conference Wi-Fi

Bush House Conference facilities use **The Cloud** network.
To connect for the first time, follow these steps:

1. Ensure your Wi-Fi is turned on by going to **Settings** and selecting **Wi-Fi**.
2. If you're within range of a Cloud hotspot, select **The Cloud** from the available networks.
3. Open your web browser. The Cloud landing page should appear. If it doesn't, refresh the page.
4. Click **Get Online** and follow the on-screen instructions.
5. Once connected, you'll see a **"Welcome to The Cloud"** message and a session timer. You can now start browsing.

Welcome

A very warm welcome to London for the 12th King's John Price Paediatric Respiratory Conference. Now in its 12th year, this gathering has grown into the UK's largest annual multidisciplinary meeting dedicated to the respiratory health of children and young people.

Our theme this year "*Innovations & Challenges in Paediatric Respiratory Medicine: From Early Life to Future Lung Health*" reflecting our commitment to bridging the gap between cutting-edge research and bedside clinical practice. We are incredibly grateful to our international faculty and the many researchers who have submitted their work to be featured in this year's programme.

Whether you are joining us in person or virtually, we hope this conference sparks new collaborations, challenges your perspectives, and provides practical insights that you can take back to your local teams to improve patient care.

Warm regards,
Atul Gupta, & Kat Harman
Conference Directors

www.paediatricrespiratory.com

  @LondonPaedResp [#PaedResp2026](https://twitter.com/LondonPaedResp)

Information

WIFI ACCESS

Free WiFi is available using The Cloud network. There is a one-time authentication process to follow when you first visit a Cloud hotspot. Select Get Online & follow the instructions.

EVENTEE APP

Download the **Eventee** application to manage your conference experience. This is your primary hub for building a personalised agenda, viewing the parallel streams in real-time, networking directly with fellow delegates and faculty, and receiving the latest event updates.

ASK A QUESTION

Use the **Eventee** app to engage directly with our expert faculty during the conference.

EXHIBITION

The exhibition including posters and our sponsors will be on the 8th floor and Arcade area.

NETWORKING RECEPTIONS

You are welcome to join the Drinks Receptions on 22 & 23 April being held on the 8th Floor.

PRAYER ROOM

A prayer room is situated in the North East Wing of Bush House, next to Lecture Theatre 3.

SOCIAL MEDIA

Stay connected and join the conversation on X, bluesky and Instagram:
@LondonPaedResp #paedresp2026

FEEDBACK

The online evaluation will be emailed following the conference. Please complete the feedback as this helps us further improve KJP conferences & ensure we are meeting your needs.

CERTIFICATES & CPD POINTS

Attendance Certificates will be emailed after the conference, following completion of feedback. Poster Certificates will be emailed to the presenting authors after the conference.

RCPCH has approved this conference for CPD in accordance with the current RCPCH CPD guidelines

ON DEMAND

All recorded sessions will be available for 360 days of on-demand access with unlimited playback for registered delegates. These are available on talks.paediatricrespiratory.com/ following registration and email verification.

REFRESHMENTS

Refreshments and catering will be served on the 8th floor. Water fountains are available on several floors adjacent to the lifts.

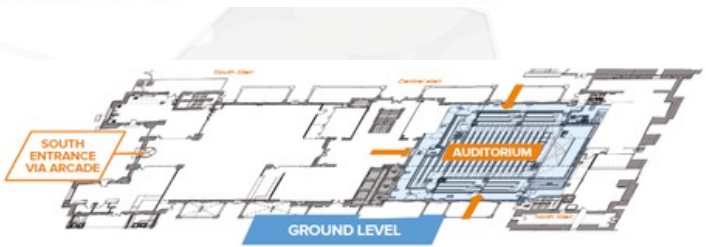

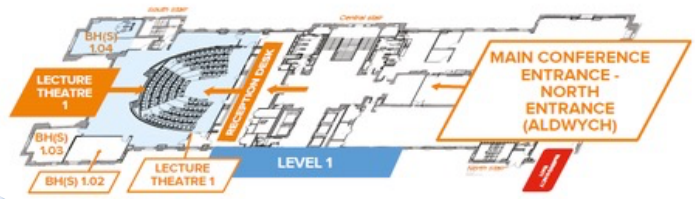

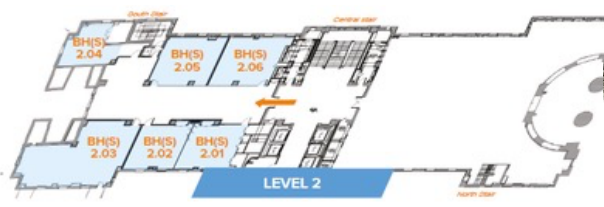

PARENTING ROOM

South East wing, ask at reception/security for access.

Floor Plan

Programme

Wednesday 22 April

08:00

Coffee and Registration

Auditorium

08:30

Welcome

Prof Atul Gupta, Dr Kat Harman

08:40

What's New in the Management of Food Allergy?

Prof Adam Fox

09:10

Prematurity-associated Lung Disease: Evolving Definitions, Phenotyping and Management Strategies

Prof Sailesh Kotecha

09:40

Beyond the Developmental Origins of Health and Disease: What Have We Now Learned?

Prof Andy Bush

10:10

Coffee Break

Auditorium

Lecture Theatre 1

Lecture Theatre 2

11:00

What's New in Preschool Wheezing: Implications for Clinical Decision-making

Prof Sejal Saglani

Recognising Complex Chest Infections – Imaging Essentials

Dr Saira Haque

Environmental Allergies as Asthma Triggers & Drivers

Dr Nicola Brathwaite

11:25

Budesonide-Formoterol Versus Salbutamol as Reliever Therapy in Children with Mild Asthma

Dr Lee Hatter

Tuberculosis and Pulmonary Pathogens in Children with Cystic Fibrosis

Dr Tom Semple

Oral Abstract Presentation

Establishing a Nurse-led Mould and Damp Referral Service

Take a breath. A Challenging Case at the Interface of Respiratory Medicine and Environmental Health.

11:50

The NICE/BTS Guideline Should be Seen as a Step Forward

Prof Ian Sinha

The NICE/BTS Guideline May be Seen as a Step Backwards

Dr Ross Langley

Imaging Lung Infection in Immunodeficiency

Dr Alistair Calder

Are Children Admitted with Near-Fatal Asthma Receiving the Core Elements of Care at Discharge? Results From NRAP, The National Respiratory Audit Programme.

Lower Airway Immunophenotyping Reveals Distinct Clusters of Severe Preschool Wheeze Described by Neutrophil Phenotype.

Inhomogeneity of Ventilation in Paediatric Bronchiectasis as Measured by MBW; A Cohort Study.

Ultra-short Echo Time MRI Provides Detailed Cross-sectional Imaging of the Pre-term Lung.

Abstracts

Asthma & Allergy

Oral Presentation		
Are children admitted with near-fatal asthma receiving the core elements of care at discharge? Results from NRAP, the National Respiratory Audit Programme	Aleksandra Gawlik-Lipinski, Alexander Adamson, Ruth O'Beirne, Peter van Geffen, Jenni Quint, James W Dodd, Tom Wilkinson, Ian Sinha	Day 1
Lower airway immunophenotyping reveals distinct clusters of severe preschool wheeze described by neutrophil phenotype	Katie Bonner, Sara Fontanella, Mindy Gore, James Cook, Ashley Hoffland, Elizabeth Scotney, Kunyuan Tian, Andrew Bush, Adnan Custovic, Clare Lloyd, Sejal Saglani	Day 1
Poster Presentation		
Atopy as a risk factor for paediatric acute asthma in thunderstorm conditions: a retrospective case-control study	Suraya Foster, Nora Antova, Adam Usher	Day 1
Exploring health professional views of management for preschool wheeze (PSW): A qualitative study	Lubna Wajid, Sejal Saglani, Prasad Nagakumar, Gemma Heath	Day 1
Breathing Easy at Home: The Impact of Paediatric Virtual Ward on Admissions Avoidance for Children with Asthma	Chloe Baird-Rayner, Sophie Harris, Ruth Hartland, Lucy Quirk, Maria Atkinson	Day 1
Project to improve understanding of air pollutants, exposures and patient awareness, in our CYP with asthma	Madeleine Glasbey, Sonal Kansra, Samantha Flowers	Day 1
Longitudinal trends in fatal and life-threatening asthma in CYP in England - a retrospective cohort study	Aleksandra Gawlik-Lipinski, Jonathan Broomfield, Sharmin Shabnam, Erol A Gaillard, Jenni K Quint, Clare L Gillies, David KH Lo	Day 1
Closing the Gap in Paediatric Asthma Care: 24-Hour Post-Discharge Community Review by CHAHT	Bengisu Bassoy, Jatinder Jheeta	Day 1
Severe Paediatric Asthma: When Management Costs More Than Medicine	Pippa Smith, Lucie Coppinger, Arshid Murad, Ahmed Hegab	Day 1

Abstracts

Asthma & Allergy

Poster Presentation		
Escalation, Steroids and Forgotten Discharge Bundle: What Acute Asthma Admissions in a DGH Really Reveal	Suman Bhattacharyya, James Houston	Day 1
Beyond Asthma: Addressing Rhinitis and Environmental Triggers in Paediatric Respiratory Care	Karena Krishnavenan, Ayo-Oluwa Adeyemi, Rima Al-Saffar, Abigail Whitehouse	Day 1
Primary Care Education to Improve Management of Paediatric Asthma: A Quality Improvement Initiative in South West London	Danielle Bucke, Charlotte Doyle	Day 1
Risk identification and follow up of children presenting with acute asthma to hospital: A review of 198 presentations	Yashasvi Rajeev, Dola Rabi, Hannah Farley, Konstantina Papadopoulou, Zainab Awan, Alison Summerfield, Stephen Goldring	Day 1
Establishing a New Direct Access Referral Pathway for CYP with Suspected Asthma in Cambridgeshire and Peterborough	Vanisha Morar, Kelly Pauley, Karena Fraser	Day 1
Supporting transition of young people with Asthma into adult services: An Asthma specific readiness tool	Kelly Quinn, Angela Jamalzadeh, Amanda Equi, Lynn Sinitsky	Day 1
Physician Assistant role within Paediatric Respiratory Services in CAH	Rebekah Murphy, Veena Vasi, Grainne McParland	Day 1
Community Diagnostic Centres as novel pathways for diagnosis of children and young people with asthma	Elena Rybka, Maneth Warnapala, Tal Oryan, Louise Pike, Zainab Awan	Day 2
Implementation of the 2024 PIER Network Asthma Guidelines has significantly reduced primary care prescribing of Salbutamol	Joshua Samuel, Anna Selby, Gary Connett	Day 2
Is it necessary to assess bronchodilator response in all cases of suspected asthma?	Michael Hughes, Katie Read	Day 2
Acceptability of point-of-care testing in children presenting with acute preschool wheeze enrolled in the PRECISE study	Hannah Norman-Bruce, Tom Waterfield, Helen Groves	Day 2
Clinical Profile and Impulse Oscillometry Patterns in Preschool Wheezers: A Cross-sectional Study	Tanvi Bafna, Sanjay Bafna, Siddhant Lalwani, Suman Bisht, Manali Shinde	Day 2

Abstracts

Cystic Fibrosis & Suppurative Lung Disease

Case Presentation		
Asymptomatic drug-induced liver injury (DILI) in a child with cystic fibrosis on long-term ETI Therapy	James Poole-Cowley, Manjith Narayanan, Stefan Unger, Jenny Marwick, Paul Henderson, Don Urquhart	Day 2
When the Miracle Drug Disrupts Sleep: Behavioural Changes in a Young Child on Kaftrio	Kelly Knox, Arshid Murad, Ahmed Hegab	Day 2
Severe ABPA and NTM in a child with CF: A Challenging but Rewarding Management Journey	Ankur Sharma, Wanda Kozłowska, Donna McShane	Day 2
Oral Presentation		
Inhomogeneity of ventilation in paediatric bronchiectasis as measured by MBW; a cohort study	Samantha Irving, Mary Abkir, Rebecca Hares, Christopher Short, Hope Zeid, Jody Forster, Kenneth Macleod, Stefan Unger, Siobhan Carr	Day 1
International Delphi consensus recommendations for the follow-up of children exposed to CFTR modulators in utero and through breastfeeding	Idan Bokobza, Amy Downes, Imogen Felton, Louise Thomson, Sian Bentley, Claire Hogg, Jane Davies	Day 2
Poster Presentation		
The socioeconomic determinants of lung function in children with Cystic Fibrosis	Isabella Jordan, Molly O'Halloran, Jenin Marianayagam	Day 1
Surveillance of Staphylococcus aureus isolation in a Paediatric CF Tertiary Centre: A service evaluation	Jenin Marianayagam, Isabella Jordan, Molly O'Halloran	Day 1
When Success Becomes a Challenge: Severe Weight Gain in a Child with CF Treated with CFTR Modulators	Claire Lord, Arshid Murad, Ahmed Hegab	Day 1
Down the Hatch: Tablet Swallowing in Paediatric CF, Respiratory and Allergy Patients	Clare Onyon, Jo Colley, Alex Macdonald, Wedgbury Nicki, Watson Paul	Day 1

Abstracts

Cystic Fibrosis & Suppurative Lung Disease

Poster Presentation		
Omadacycline as an alternative to macrolides in treating M. abscessus pulmonary disease in children with CF	Divya Obla Amar Bapu, Robyn Campbell, Stefan Unger, Ian F Laurenson, Don Urquhart, Manjith Narayanan, Emilie Tennant	Day 2
Reducing prescribing errors in paediatric cystic fibrosis in a DGH	Marianne Tavabie, Cassandra Barrett	Day 2
Linear Trends in ABPA Biomarkers Among Paediatric CF Patients: A Service Evaluation at RMCH	Molly O'halloran, Anirban Maitra, Isabella Jordan, Jenin Marianayagam	Day 2
Diagnostic and management challenges in a rare case of CF co-occurring with Crohn's Disease and Protein-S deficiency	Damilola Oladele, Lucy Chapell, Karnam Sugumar	Day 2
Service Evaluation of a Recently Established Paediatric Bronchiectasis Clinic	Samuel Arthur, Lucy Everitt, Woolf Walker	Day 2

Infection

Poster Presentation		
A review of outcome and factors for RSV LRTI in a public tertiary paediatric unit in Hong Kong	Sze Hang Fung, Kin Lok Wong	Day 1
Naturally occurring resistance-associated substitutions (RAS): To what extent do they impact treatment for RSV?	Kirthana Balachandran	Day 1
Evaluation of Surfactant Protein D as a biomarker for respiratory disease progression in children with bronchiolitis	Khin Su Tha, Tania Castillo Hernandez, Jens Madsen, Howard Clark, Malcom G Semple	Day 1
The impact of limited-eligibility nirsevimab on paediatric RSV infection and hospitalisations in an Australian jurisdiction	Nicola Irwin, Shevaun Ey, Xiyu Chen, Deepti Raina, Drew Richardson	Day 1
Screening for respiratory syncytial viruses in hospitalised children aged >2 years with Multiplex PCR: is it worthwhile?	Ankita Halder, Misbah Fakhri, Reshma Babu, Siba Paul	Day 1
BCG Lymphadenitis: When to Treat?	Ankur Sharma, Sarah Nethercott, Donna McShane, Catherine O'Sullivan	Day 2

Abstracts

Neonatal Pulmonology / Congenital Malformation

Oral Presentation		
Ultra-short echo time MRI provides detailed cross-sectional imaging of the pre-term lung	Jonathan Smith, Porus Bustani, Robert Morton, Amy Simmons, David Hughes, Jody Bray, Anna Zalewska, Shagufta Fazal, David Capener, Jim Wild, Neil Stewart	Day 1
Poster Presentation		
A review of lung function testing after surgical and conservative management of children with congenital lung lesions	Michael Clachers, Paul Burns, Jonathan Coutts	Day 1
Respiratory Consequences of Antenatal Risdipnam in Spinal Muscular Atrophy Type 1	Samantha Cheng, Marjorie Illingworth, Julie Duncan	Day 2
WAVE study a UK feasibility interventional trial in preterm infants with apnoea of prematurity	Oana Anton, Ramon Fernandez, Sonia Sobowiec, David Wertheim, Heike Rabe	Day 2
When the CLOck strikes three: a case series of congenital lobar overinflation in three paediatric patients	Maeve Gough, Rebecca Peto, Laura Gardner, Thomas Semple	Day 2

Physiology / Sleep / Non-Invasive Ventilation

Poster Presentation		
Using a Combination of Oximetry Measures to Predict Obstructive Sleep Apnoea in Children with Down Syndrome	Hannah Vennard, Menaga Ananthamoorthy, Elise Buchan, Thomas L Wilkinson, Rebecca Lennon, Jay James, David Young, Martin Samuels, Hazel J Evans, Ross Langley	Day 1
Intrapulmonary Percussive Ventilation (IPV) use in SMA: Optimising airway clearance in a UK community setting	Ruth Wakeman, Heather Everest, Kate Coughlan, Hui-Leng Tan, Rishwa Vitlhani, Andrew Bush	Day 1
Central Hypoventilation and Poor Sleep Efficiency in children with Severe Moebius Sequence	Anna Hughes, Harriet Wayman, Bryn Morris, Antonia McBride, Stuart Wilkinson	Day 1

Abstracts

Physiology / Sleep / Non-Invasive Ventilation

Poster Presentation		
Diagnostic impact of brain MRI for children with polygraphy confirmed frequent central apnoea's	Jemma Shanley, Hazel Evans, Harriet Joy, Hasitha Gajaweera, Supriya Shinde	Day 2
Five-Year Service Evaluation of Acute Non-Invasive Ventilation in Older Children	Aamna Ali, Helen Allman, Laurell Paul-Lockitt, Seema Sukhani	Day 2
Service Evaluation of Cardio-Pulmonary Exercise Testing in a Tertiary Paediatric Respiratory Service	Kirstie Rogers, Paul Aurora, Andrew Turnbull	Day 2
Unmasking Upper Airway Obstruction: Value of Pulmonary Function and CPET in Paediatric Patients	Paul Burns, David Wynne, Philip Davies, Ross Langley	Day 2

Public & Environmental Health / Sustainable Healthcare

Oral Presentation		
Take a breath. A Challenging Case at the Interface of Respiratory Medicine and Environmental Health	Harry Apperley	Day 1
Establishing a Nurse-Led Mould and Damp Referral Service	Holly Eldridge, Abigail Whitehouse	Day 1
Poster Presentation		
The role of air pollution in the pathogenesis of paediatric asthma - a literature review	Alfred Ellis	Day 1
Beyond the clinic: an integrated childhood asthma outreach pilot project	Oana Anton, Geeta Gopal, Davina Piper, Rita Araujo, Victoria Howells, Christopher Newland	Day 2
Reducing Carbon Footprint in CF Care: A Sustainability QI Project on Converting Liquid Medications to Tablets	Nao Doylend, Eman Hassanin	Day 2
The Impact of Home Energy Efficiency Measures on Children's Respiratory Health: A Scoping Review	Richa Kulkarni, Eleanor Harrison, Freya Semple, Abigail Whitehouse, Tom Clemens, Olivia Swann	Day 2
Nurse-led Vaping Cessation in a Busy London Tertiary Hospital	Mira Osinibi, Dr Cara Bossley	Day 2

Abstracts

Challenging Cases in Respiratory Medicine

Case Presentation		
The Importance of Pulmonary Surveillance in Paediatric Rheumatological Disease: A Case of Pulmonary Sarcoidosis	Matthew Ryde, Jayesh Bhatt, Kishore Warriar	Day 1
Metastatic Endobronchial Carcinoid Tumour in a Child: A Case Report	Jawahir Al Amri, Louisa Owens	Day 1
The growing bronchogenic cyst; a 15 year-old from Afghanistan with an asymptomatic lung cyst	Eleanor Wells, Atul Gupta, Katherine Harman	Day 1
Poster Presentation		
Bridge Over Troubled Airways: A Rare Case of Bridging Bronchus	Michael Lavery, Jonathan Twynam-Perkins	Day 1
An Uncommon Complication of Paediatric Pneumonia: Hydropneumothorax with Subsequent Empyema Formation	Francesca Groom, Sohail Nassir	Day 1
Methionine's Moment: The Role of Methionine in Pulmonary Alveolar Proteinosis	Shana Irvine	Day 1
Suprises at every turn: an unusual case of NIV dependence in a preterm T21 Neonate	Polly Robinson, John King	Day 1
Challenges of managing an infant with Generalised lymphatic anomaly (lymphangiomatosis)	Rebecca Ellerton, Caroline Harris, Colin Nice, Ralph Jackson, Kristiana Gordon, Sahar Mansour, Louise Kenny, Matthew Thomas	Day 2
Don't forget the blood vessels	Nidhi Desai, Abigail Whitehouse, Sarah Brown	Day 2
More than Just Fluid	Lucy Whittaker, Charlotte Rampton, Stuart Forbes, Claire Edmondson, Woolf Walker	Day 2
Pulmonary Lymphangitis in a Child with a Mosaic KRAS Disorder	Matthew Ryde, Jayesh Bhatt	Day 2
A Single Ventricle - a Bronchoscopist's Nightmare	Charlotte Rampton, Michael Griksaitis, Andrew Ho, Gary Connett, Julian Legg, Aiman Alzetani	Day 2
Unexpected Recovery of a Lost Lobe	Divya Obla Amar Babu, Catherine McDougall, Don Urquhart	Day 2

Abstracts

QI Project / Miscellaneous

Poster Presentation		
3D Facial Scanning Fidelity Under Motion and Skin Tone Variation: A Rapid Review	Jagjot Rakkar, Tariq Issa, Abdullahi Mohamed, Ritika Patel, Joanna MacLean	Day 1
Treatment Strategies for Pelvic Floor Dysfunction in Chronic Respiratory Conditions: A Scoping Review	Adele Russell, Zoe Johnstone	Day 1
The diagnostic utility of bronchoscopy and lipid-laden macrophages in identifying aspiration in children	Kathryn Kimber, Sairah Akbar	Day 1
Audit of HFNC oxygen therapy use in paediatrics in the East of England: Compliance and impact	Seema Sukhani, Francesca Wright, Jane Jones, Eniko Erdodi	Day 2
Estimation of Radiation Dose in Paediatric Chest Imaging: A Medical Physics Study	Saira Haque, Sarah Gower, Amy Skelton, Tim Howard	Day 2
Respiratory Outcomes in Children with Chronic Pulmonary Aspiration: A Scoping Review	Nadine Freitag, Dirk Schramm, Shailesh Kolekar, Panayiota Senekkis-Florent, Stefan Unger, Isuru Dharmarathna, Georgios Kaltsakas, Anne Schlegkendal, Jeanne Marshall	Day 2
Integrating SLTs into paediatric respiratory outpatient clinics: experiences from two London centres	Kirsty Jones, Clare Russell, Katharine Harman, Dominic Hughes, Clare Lilley	Day 2

Sponsors & Exhibitors

The following companies have provided sponsorship towards the venue and catering costs of this conference, and will be present with a trade exhibition stand. They have had no input into or influence over the agenda, content or speakers.

About AstraZeneca

AstraZeneca is a global, science-led biopharmaceutical company that focuses on the discovery, development, and commercialisation of prescription medicines in Oncology, Rare Diseases, and BioPharmaceuticals, including Cardiovascular, Renal & Metabolism, and Respiratory & Immunology. AstraZeneca operates in over 100 countries and its medicines are used by millions of patients worldwide.

With a proud 100-year heritage in advancing UK science, today AstraZeneca is the UK's leading biopharmaceutical company. The company is based in five different locations across the UK, with its global headquarters in Cambridge. In the UK, around 8,700 employees work in research and development, manufacturing, supply, sales, and marketing. We supply around 36 different medicines to the NHS.

For more information, please visit www.astrazeneca.co.uk and follow on Twitter @AstraZenecaUK.

We are grateful to our sponsor & exhibitors for their generous support of this conference. Please take time to visit the Exhibition, re-connect with the organisations present and enjoy a meaningful conversation.

**NEW MATERIALS FOR YOUR ASTHMA PATIENTS
6 TO 11 YEARS OLD PRESCRIBED SYMBICORT
(BUDESONIDE/FORMOTEROL) TURBOHALER 100/6
FOR MAINTENANCE AND RELIEVER THERAPY**

YOU WILL BE ABLE TO ACCESS THESE ASSETS BOTH AS DIGITAL EDITABLE PDFS OR PRINTED COPIES

PATIENT LEAFLET

This includes information about asthma, how to manage symptoms, how to use Symbicort® Turbohaler® 100/6 MART and what to do in an emergency.

PATIENT ASTHMA ACTION PLAN (PAAP)

This includes a record of patient's treatment dose, how to manage symptoms, what to do in an emergency and FAQs to check day-to-day questions.

You can order Turbohaler placebos and training whistles for your patients to demonstrate and check inhaler technique.

DIGITAL PATIENT RESOURCE

PRINT PATIENT RESOURCE

Symbicort® (budesonide/formoterol) Turbohaler® 100/6 is indicated for regular treatment of asthma where the combined use of inhaled corticosteroids (ICS) and long-acting β_2 adrenoceptor agonist (LABA) is appropriate.¹ Patients not adequately controlled with ICS and as needed inhaled short-acting β_2 adrenoceptor agonists (SABA) or Patients already adequately controlled on both ICS and LABA. Symbicort® Turbohaler® 100/6 is indicated for adult, adolescents and children aged 6 years and older. Symbicort® Turbohaler® 100/6 is not intended for the initial management of asthma. It is indicated in patients with asthma aged ≥ 6 years for regular maintenance treatment with a separate rapid-acting bronchodilator as rescue or as a Maintenance and Reliever Therapy (MART).¹

You are strongly advised to consult the respective SmPCs before prescribing for age related dosing, maximum dosage and method of administration for Symbicort® Turbohaler® 100/6.¹

Adverse events should be reported. Reporting forms and information can be found at <https://yellowcard.mhra.gov.uk/> or search for MHRA Yellow Card in the Google Play or Apple App Store. Adverse events should also be reported to AstraZeneca by visiting <https://contactazmedical.astrazeneca.com> or by calling 0800 783 0033.

TEZSPIRE (tezepelumab) is indicated as an add-on maintenance treatment in adults and adolescents 12 years and older with severe asthma who are inadequately controlled despite high dose inhaled corticosteroids plus another medicinal product for maintenance treatment.¹

1. TEZSPIRE. Summary of Product Characteristics

Sponsors & Exhibitors

Exhibitors

sanofi

Sanofi is an R&D-driven, AI-powered biopharma company committed to improving people's lives and delivering compelling growth.

The promotional symposium sponsored and organised by Sanofi, intended for UK HCPs only. Sanofi products will be discussed at this meeting and prescribing and adverse event reporting information will be available at the meeting.

diagenics

<https://diagenics.co.uk/>

Diagenics Limited is a UK-based provider of diagnostic and biomedical research solutions, with over 30 years of experience supporting healthcare professionals, patients, and researchers. Founded in 1994, the company specialises in allergy and respiratory diagnostics, immunotherapy products, and research-grade assay kits for clinical and laboratory use.

Diagenics supplies a comprehensive portfolio of skin prick and patch test solutions for allergy diagnosis, alongside products supporting the assessment and management of respiratory conditions.

The company partners with leading international manufacturers, including Allergopharma, Lofarma, Diater, Smart Practice, and Merckodia, to provide reliable, clinically validated diagnostic tools and ELISA kits.

In addition to product supply, Diagenics offers technical expertise, training, and educational resources to clinicians and laboratory teams. All products are stored and distributed in compliance with GDP and MHRA temperature-controlled guidelines, ensuring quality, safety, and regulatory assurance across the UK healthcare sector.

 **TRUDELL MEDICAL
 UK LIMITED**

<https://www.trudellmed.com/uk/en-gb>

TruMed Medical UK Limited works with patients, their caregivers and healthcare professionals to help patients all over the world breathe better and live fuller lives. We manufacture and globally market some of the leading brands in respiratory care including the AeroChamber* brand of spacers, Aerobika* OPEP devices, and AEROECLIPSE* BAN* nebulisers.

 **RS
 RemServe**

<http://www.remservemedical.com/>

RemServe Medical are respiratory specialists in devices and consumable products. We use a select network of companies to offer information, advice, and product compatibility to match the requirements of the clinician and departments.

Our mission is uncomplicated; we aim to reliably supply to meet the needs of our customers in terms of quality products and services made with simple and consistent pricing.

With a professional, honest, and ethical approach, we maintain a high level of customer service, support, and training. We are proud to deliver best practices and best product matches to guarantee continued clinical excellence and partnership with the NHS.

 **VERTEX**
 THE SCIENCE OF POSSIBILITY

Vertex is a global biotechnology company that invests in scientific innovation to create transformative medicines for people with serious diseases.
